## EXPERIENCE

OpenText — **Software Engineer** – Remote

October 2021 - PRESENT

- Spearheaded UI/UX enhancements that boosted user satisfaction by 65%, transforming product usability through intuitive design and functionality.
- Engineered RESTful API integrations, slashing data retrieval times by 30% and improving operational efficiency.
- Partnered with backend teams to troubleshoot and resolve critical issues, elevating system reliability by 45%

Amazon FC, West Jordan — **Processing Assistant**

August 2020 - September 2021

- Directed inbound dock operations, processing up to 13,000 units daily with 95% accuracy, ensuring seamless inventory flow.
- Collaborated with leadership to optimize staffing and resources, streamlining workflows and reducing operational downtime.
- Mastered Amazon's Warehouse Management System (WMS) to track inventory and deliver actionable performance insights through detailed reports.

## PROJECTS

Access Manager & Advanced Authentication UI Rework

- Led the redesign of UI/UX for a flagship product, delivering a seamless and user-friendly experience.
- Optimized API integrations for faster, more reliable data exchange between frontend and backend systems.
- Worked closely with backend developers to enhance performance and stability, while introducing creative data visualization techniques to improve accessibility.

Access Manager Training Website

- Built a dynamic, centralized website to revolutionize training for new interns, focusing on automation testing and NetIQ Access Manager.
- Streamlined resource access, cutting onboarding time and boosting team productivity through an efficient, user-centric design.

## SKILLS

Technical Expertise:	Angular, React, TypeScript, Java, HTML5, CSS3, RESTful APIs, PostgreSQL
Tools:	Git, IntelliJ, VSCode
Core Strengths:	Agile Methodologies, Problem Solving, Debugging, Collaboration, Communication, Leadership

## LANGUAGES

Programming Languages:	Python, Java, TypeScript, JavaScript
Web Technologies:	Angular, React, HTML5, CSS, SCSS
APIs:	RESTful API Development
Databases:	PostgreSQL, MySQL
Tools:	Git, IntelliJ, VSCode
